

Safety Net Hospital Designations for Medicare Mandatory Bundle Model (TEAM)

[CMS' 2025 IPPS Final Rule](#) defines a safety net hospital accordingly (pp 2578-9):

“*Safety Net hospital* means an IPPS hospital that meets at least one of the following criteria:

- (1) Exceeds the 75th percentile of the proportion of Medicare beneficiaries considered dually eligible for Medicare and Medicaid across all PPS acute care hospitals in the baseline period.
- (2) Exceeds the 75th percentile of the proportion of Medicare beneficiaries partially or fully eligible to receive Part D low-income subsidies across all PPS acute care hospitals in the baseline period.”

IAC calculated safety net hospital designations based on the following assumptions:

1. Three years of data (2021-2023) are used as the baseline period
2. Calculations are based on traditional Medicare beneficiaries with both Part A and Part B coverage
3. Hospitals must be IPPS eligible and listed in FY2025 PPS Impact file
4. Inpatient admissions are used for the numerator and denominator to calculate the proportion of dually-eligible and low-income subsidy eligible beneficiaries

Safety Net Hospitals Selected for TEAM Participation

These data are estimates based on assumptions and information available at the time of the final rule; users be advised that these numbers may change as new information becomes available.
